# BATTLE OF PODGORA

Protagonists were the feats of Rgt. Carabinieri of the King on 18 and 19 July 1915 in the attack with cold steel on the slopes of Podgora hill.

The deployment emerges and takes action. Marching rapidly ... not toward the enemy trenches but over, without fighting, for the freest flight

Jesus does not remain passive,  
but reacts to destiny.  
Trapped in a reticulated,  
with barbed wire that reaches the head  
to form a crown; is its own hand that  
tries to tear it off away...  
that reticulated that seems to continue  
its path to trap someone else

6000 bombole were opened towards the front line occupied by Italian battalions of the 21° 22°. Hungarians Divisions overwhelmed with bats dying infantrymen who resisted with unexpected angry

Melees in open field of incredible ferocity raged in a unprecedented man vs man.

# ONCE UPON A TIME ON CARSO
